Web & Database: HTML, CSS, AJAX, jQuery, Oracle SQL, MySQL
Tools: Visual Studio 2022, .NET, Linux/Unix, GitHub, SQL Developer, Microsoft Office
Core Skills: Object-oriented programming, debugging, database design, problem-solving, communication, teamwork, adaptability

EDUCATION

Software Engineering Technology – Artificial Intelligence (Co-op), Advanced Diploma
Centennial College, Toronto, ON – Expected May 2028 | GPA: 3.9

Relevant Courses: Programming, Database Concepts, Client-Side Web Development, Unix/Linux Operating Systems, Software Requirements Engineering, Artificial Intelligence

SELECTED ACADEMIC PROJECTS

C# Object-Oriented Applications | C# / .NET
- Built C# applications using classes, inheritance, polymorphism, interfaces, exceptions and collections
- Created Windows Forms programs with user input validation, file handling and event-driven features

Database Development | Oracle SQL / SQL Developer
- Created relational database structures using tables, keys, constraints and relationships
- Wrote and debugged SQL queries to retrieve, join and update data while maintaining data integrity

Web Development | HTML / CSS / JavaScript / AJAX / jQuery
- Built interactive web pages using HTML, CSS and JavaScript, including dynamic content and user interaction
- Used AJAX and jQuery to load external data and update page content without a full page reload

Linux Automation | Linux / Bash / MySQL
- Created Bash scripts for system tasks, user input and data conversions
- Configured Linux services and firewall rules and performed MySQL backup and scheduled automation tasks.
